MAKE SOUND INVISIBLE
WWW.SILBERFORM-DYNAMICS.COM

THE ACOUSTIC SYSTEM FOR INVISIBLE SOUND

WWW.SILBERFORM-DYNAMICS.COM

YOUR ADVANTAGES

- Spatial sound experience
- Flexible positioning
- Minimum installation space
- Non-visible sound source
- Adaptive mounting concept
- No sound openings necessary
- Premium Exciter audited manufacturing according to VDA standard

SILBERFORM DYNAMICS COMPONENTS

- Certified electronic components
- Amplifiers and Digital Sound Processing
(sound sources, electronics and cable sets)

Electronics powered by:

**AUDIOTEC
FISCHER**
INNOVATIVE CAR AUDIO

TECHNICAL SPECIFICATIONS: EX42/4-2K-EXCITER

- Frequency range: 100 Hz - 12 kHz
 - Dimensions: dia.=50mm, h=20mm
 - Total weight: 118g
 - Nominal impedance Z: 4 / 8 Ohm
 - Ambient temperature:- 40°C to +105°C
 - Humidity: max 93%
 - Tactile feedback through vibration
 - Bluetooth capability*
 - Connection options*
(High level speaker inputs / Chinch / Optical SPDIF)
- *In connection with electronic components from Audiotec Fischer

SERVICES

- Development of product-specific acoustic concepts
- Digital sound processing (adaptation of the components to the room acoustics)
- Integration into existing acoustic systems
- External media connection
- Development of mounting concepts
